ASTR1003 Astronomy and Space

https://programsandcourses.anu.edu.au/course/ASTR1003

Prerequisite structure Open to all students
Prerequisite units No prerequisite units

TD Skills: Do students develop transdisciplinary problem-solving skills through this course?

Somewhat Likely
Students develop limited transdisciplinary problem-solving skills amongst other skills throughout the course

For example
LO: [Context] Appreciate and communicate traditional Indigenous understandings of astronomy.
LO: [Context] Identify and communicate the ways in which space technology can and will affect the modern and future world.

TD Skills: Do students meaningfully collaborate across disciplinary/area difference through this course?

Somewhat Likely
Students engaging with material that facilitates collaboration with other disciplinary backgrounds

For example
Description: Spaceflight, space technologies, space law and space medicine.

TD Context: How is the transdisciplinary problem-solving experience situated with respect to broader contexts?

Somewhat Likely
Students explore big-picture problems, ideas and broader contexts in relation to a discipline/area

For example
LO: Identify and communicate the ways in which space technology can and will affect the modern and future world.
