BIOL3142 Biomedical Parasitology

<https://programsandcourses.anu.edu.au/course/BIOL3142>

Prerequisite structure Open to students with particular courses

Prerequisite units Normally completed at least 72 units

TD Skills: Do students develop transdisciplinary problem-solving skills through this course?

Somewhat Likely

Students develop limited transdisciplinary problem-solving skills amongst other skills throughout the course

For example

Description: In this course we will take a broad and multi-disciplinary approach to the complex and dynamic relationships between parasites and their hosts. LO: [Pluralistic] Assess and evaluate different treatment and intervention strategies.

TD Skills: Do students meaningfully collaborate across disciplinary/area difference through this course?

Not Likely

No or serendipitous engagement with transdisciplinary collaboration

For example

May be implicit in Practical sessions.

TD Context: How is the transdisciplinary problem-solving experience situated with respect to broader contexts?

Somewhat Likely

Students explore big-picture problems, ideas and broader contexts in relation to a discipline/area

For example

Description; Every 30 seconds someone is killed by a parasite. Parasites also cause damage to the livestock industry worth several billions of dollars each year. LO: Analyse key features of major parasitic diseases and evaluate their impact on human and animal health.
