ECON2009 Labour Economics and Industrial Relations

https://programsandcourses.anu.edu.au/course/ECON2009

Prerequisite structure   Open to students with particular courses
Prerequisite units   Normally completed at least 48 units

TD Skills: Do students develop transdisciplinary problem-solving skills through this course?

Somewhat Likely
Students develop limited transdisciplinary problem-solving skills amongst other skills throughout the course

For example
Description: This course provides a broad introduction to the economic analysis of labour market issues. [...] Policy applications will be emphasized. *Needs a description about context as well as topics

TD Skills: Do students meaningfully collaborate across disciplinary/area difference through this course?

Somewhat Likely
Students engaging with material that facilitates collaboration with other disciplinary backgrounds

For example
LO: interpret labour market statistics and empirical evidence in academic papers and policy reports;

TD Context: How is the transdisciplinary problem-solving experience situated with respect to broader contexts?

Not Likely
No or serendipitous engagement with big-picture issues that span disciplines/areas

For example
*Needs a statement/LO that describes a 'bigger picture' context. For example: apply basic economic analysis to a wide range of labour market issues with consideration of XYZ
